186k Supporting: The Customer Limited

Imagine being able to run your business without ever having a customer issue to deal with again? Not having your day disrupted by your clients allowing you to focus on your companies goals, sounds bliss?
We can make that happen.

186k specialise in delivering quality front end support to the ISP Market place as well as other similar industries. We bring to the table all the qualities you and your customers currently demand and expect. We can deliver our services so seamlessly to your customers that they would only notice the changes **you** asked us to make.
